Headmaster's Message

I stated at Prize Giving that this year was the best of my five at Stanstead. I suppose the immediate reaction is to assume that this judgement was made for all the normal reasons. More boys have early acceptances at university than ever before. The football and basketball teams were undefeated. Our cross-country ski team received silver medals in the All Canada Montreal-Ottawa race. It was for none of these reasons that this year was the best. It was because this year more boys found themselves than in any other.

We witnessed a developing consciousness of respect for the individual, a willingness to help others, a desire to build the idea that is Stanstead. That at times ideas differed did not matter. What did matter was that there was an awareness of the need to work together.

This year, more than ever before, the leadership came from the Senior students. They accepted a responsibility towards their fellow students that in the past was often lacking. If those who are leaving can continue to accept the responsibility of service to others, then this is a further confirmation of the quality of the year.

Let us not forget that Independent Education is a privilege born of an affluent society. Because we are privileged we must bear greater responsibilities. The first responsibility that we must meet is that of helping our fellowman.

Good-Bye, Good Luck, God Bless.

SEARCHING

We laugh, we cry,
We work, we play,
we rap, we keep silent.
We hope, we despair,
We live, we die.

The essence of existence
Is within us all,
To surge forth in a torrent
Of companionism and trust,
Of self - denial and self - sacrifice,
Of bigotry and hate,
Of prejudice and bias,
Of malice and violence.

Is the game of life yet over,
Or is it merely an intermission of surreality
Only to be replayed again,
And again, and again?
If impressionism be the drug of incompatibility,
Then must a narc bust us back
Within ourselves?

Your weakness is my valor,
My grief is your ecstasy.
Whatever we may share
Is hidden behind the wall of tradition,
Is distorted in the tangle of progress,
Is lost in the hypocrisy of truth.

The spirit shudders
At the salvation of withdrawal.
It crumbles in the embryo of interdependence;
It dies in the vaccum of insignificance
Only to be reborn in the eternal bummer
Of utter despondency and mortal agony.
It matures in the dilemma of superiority
And asks: who am I, where am I,
Why am I?

Public Speaking and Debating

Arising again after a long, forgotten dormancy, debating found its place in the activities of the year. As the year progressed it gathered momentum, encompassing students from all grades. The Debating activities began with inter-school discussion and practice debates, as the members grasped the fundamental skills. Progression outside the school as members of the Eastern Townships Schools Debating League we competed with the schools in our area. A group represented the school at the McGill Tournament. High school students from Quebec, Ontario, the Maritimes, and the United States participated in this event. The experience gained at McGill enabled the team of Mike Campbell and Paul Finestone to place third in a province-wide debate held later in the year at Bishop's University.

Public Speaking also emerged and attracted a large group of speakers who competed for the school championship. Mike Campbell won the senior division while Robert Campbell placed first in the Junior division.

We all enjoyed the year and hope the scope of activities will continue to expand year after year.

"We are here because there is no refuge finally from ourselves . . . Here a person can at least appear clearly to himself, not as the giant of his dreams nor the dwarf of his fears, but as a man, part of a whole, with his share of its purposes. In this ground we can each take root and grow, not alone any more as in death but alive to ourselves and to others."

LOVE, PEACE AND HAPPINESS

The Fall Dance was given the universal theme of Love, Peace and Happiness. King's Hall and St. Helen's again were our guests for this event which followed the varsity football victory over Bishop's. The band, Euphoria, played well and the dance was a resounding success. Thanks should go to the dance committee under the supervision of Doug Burdon.

THE RACE

New Boys' Race

This year's version of Stanstead's famed New Boys' Race took place in mid-October, but in different form. The established members of the school were no longer permitted to unleash their hassles upon the new boys, but were allowed to set up a rigorous obstacle course instead.

The most treacherous obstacle turned out to be the 'mud pool' at the finish line, of which the pictures on this page are taken. The unfortunate individuals are, from top to bottom, Gordie Hoskin, Bob Nason and Jamie Squier, who finished second behind Chris Mitchell.

But where lies the future of The Race???

Thomas Drayton

Thomas Drayton is an American poet who has had work published in several countries. His poetry deals with today's problems and he has a unique style of presentation.

In late November, Thomas spent two days here at Stanstead College and his stay was much enjoyed by both students and staff.

After lunch on the first day here, Thomas visited several classes and toured the campus. That evening Thomas gave a poetry recital with the atmosphere, in the form of simple music, was provided by several students.

The next morning, after visiting two more classes, everyone was extremely disappointed when it was time for our friend to leave. Thomas went on to New York where he was to leave on a tour of the Southwestern States.

New Boys' Show

This year's New Boys' Show was a great success. It revealed much new talent that had entered the school in 1970. Fred Horler was the master of ceremonies, and seemed to win the reputation of dramatic talent he now has with his fine job in the show. Gordie Hoskin sang a few folk selections and there were numerous comical skits highlighted by Terry Menegoz's fantastic imitations. Terry imitated everything from motorcycles to crying babies. As is customary at all New Boys' Shows, all the freshmen sang the Stanstead Alma Mater to close the performance.

Music

THE MONTREAL WEST CONCERT BAND

On Sunday, January 10, the Montreal West Concert Band came to Stanstead College. The entire school attended the concert which was held in the gym that evening. The band played several selections, quite a few of which were modernized classical. Any skeptical listeners soon found that they were enjoying themselves, though the acoustics in the gym were anything but perfect. The event proved a highlight of the first weekend of the Winter Term.

The football season of 1970 began on a new foot for the Big Red Machine. One week before the actual school began, eighteen boys turned out for the pre-season training camp. When the rest of the school returned, the team was complete. The squad was not as big physically as those of past years and it was considered that this was to be a rebuilding year for Stanstead. Such was not to be the case.

The season started with a "controlled" scrimmage against North Country Union. We emerged with a 13-12 victory to avenge our only loss last year.

Our next game was against the always tough "Old Boys". We came out of the game with a 20-7 victory for our second win.

After a victory over Hudson, we travelled to Ottawa to play Ashbury. With key personnel missing from the lineup, the offense was not up to par but the big defense was tough and aggressive and Stanstead came out on top 12-0.

The team travelled to Bishop's next to play the first of a two-game total point series. The squad was really up for this game and it showed as we trounced them solidly 54-6.

The week after we played Alexander Galt at B.C.S. field. It was now known that Stanstead was tough and experienced and the team to beat. AGRHS came out with a very big team. The Red Machine put it all together and again came out on top 27-6.

The following week we played our second game with Bishop's on our home field which we won 56-0. The series wound up in our favour 110-6.

Our last scheduled game was against an All-Star team from St. Pat's and Quebec High in Quebec City. We arrived there sporting a 7 and 0 record. Stanstead really

showed what they were made of and completed the season with a big victory.

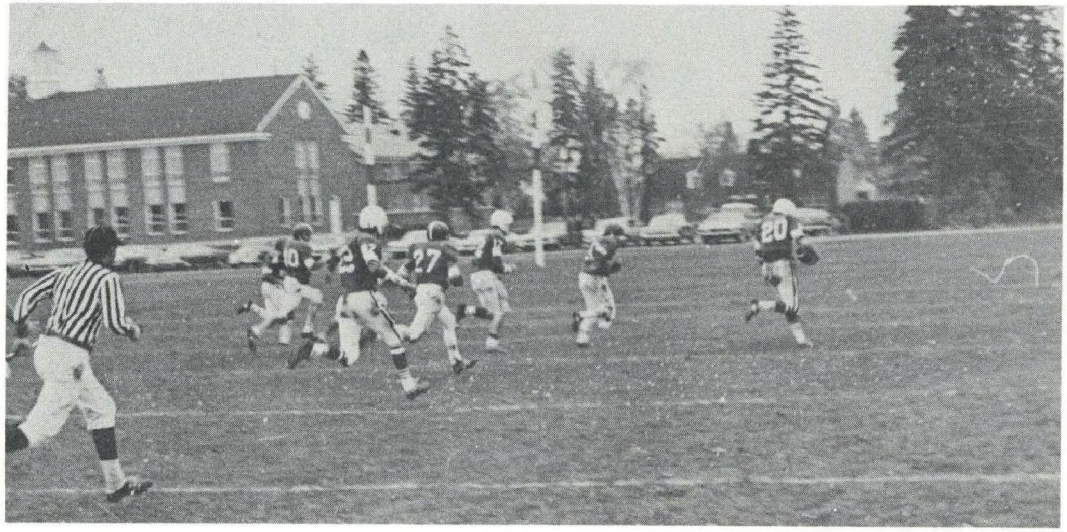

We all worked hard and did everything as a team throughout the season. Without the excellent coaching of Mr. Alex Philip and Mr. Brian Denney such a great season would not have been possible.

The team thanks you!

The Junior Varsity Football team this year was a team with spirit. We got off to a slow start, losing to Selwyn House 14-0. We managed to tie B.C.S. Our strong defense was the key factor. We also tied North Country Union.

After two weeks of tough practice we began to roll. In our next game against Selwyn House we beat them by a score of 11-7. Our second encounter against B.C.S. followed and it proved to be our most satisfying victory as we came out on top 48-6.

The experience gained by the team did a lot for the boys and some of them will be good Varsity material for next year. Such a season would not have been possible without the excellent coaching of Mr. Brock and Mr. Colehower. Thank you.

SITTING: R. Mcleod, D. Huitson, S. Bird, A. Dowd, M. Solomon, H. Wesselenk, Mr. Boyd, Coach.

The Stanstead cross-country team came into its own this year. There were twice as many races as last year with many more boys participating in the event. The team was strong with many of the younger members attaining top positions.

This sport is so individualistic as the runners are left alone to train each and every day and run an average of five to six miles, rain or shine. It gives a runner satisfaction to build his endurance and know that he can run many miles without becoming exhausted.

The top runners this year were Gordon Wing, David Huitson, Stephen Bird, Jamie Squier, and Roddy Mcleod. Unfortunately, the team consists of only five runners but the younger members were turning out fine times and we can expect good runners for future teams.

Many thanks go to our able coach, Mr. Peter Boyd for the time and effort he gave to help us all.

As a season progresses a team begins to function with unity and put it all together until at the end it reaches its peak which exemplifies all its achievements. Stanstead was no exception. We saw both sides of the coin; we won and we lost. But above all - we were a team.

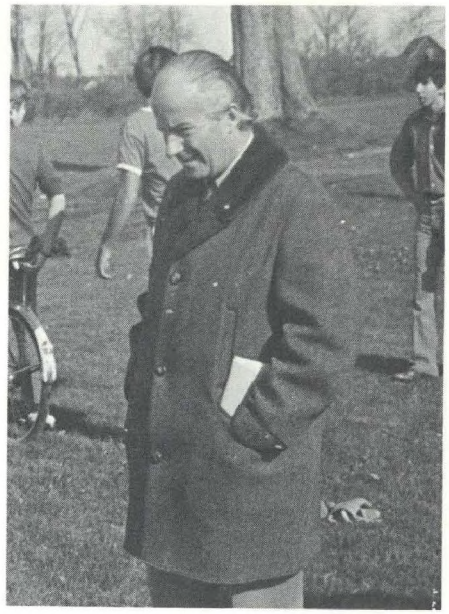

Looking at the squad, the honours must go to Greg Brown, our centre half, the most able of the players. The captain, Bill Robinson, rallied the team and scored a healthy number of goals. Dominating the score board was Pierre Casgrain, who had the speed to turn the opposition's mistakes to our favor and score quick and vital goals. Not to be forgotten is Hugh Gurd, a dominant defensive force who made life miserable for the opposing attackers.

Reviewing the season, we must look upon it as a complete success. The team showed that they were hard fighting and aggressive and surrendered nothing without a challenge.

We extend our gratitude to Mr. Russell and his son Kevin. Mr. Russell formed us into a team with spirit and desire. Kevin was our mascot and most loyal fan. To them we give our many thanks for a complete and enjoyable season.

The Junior Varsity Soccer season was enjoyable and a success. The team had plenty of spirit and desire and worked hard throughout the schedule. At the beginning of the season the team pulled up two players from the Junior team and both helped the team immensely.

Unfortunately, one of our key players was injured in the early stages of the season and had to be dropped from the line-up.

There was no single highlight to the season as every game was tough, exciting, and aggressive.

The season was very enjoyable and we would like to especially thank Mr. Walker for his time and effort in coaching us.

The season itself started off very well but to our disadvantage we lost two of our best players to the J.V.'s. As a few of our players were a couple of months over the age limit, we were forced to play exhibition games against some pretty good teams.

In the beginning we didn't look like much of an organized team, but after a few weeks of good coaching, we started to show ourselves worthy of being called soccer players. The team on the whole played well, tried its best, and showed good sportsmanship at all times. We played six games: winning two, losing three, and tying one.

On behalf of the entire team, I would like to thank Mr. Chen and Mr. Lebel for their time and effort spent in teaching us the skills and enjoyment of soccer.

This year's team started off, as usual, optimistically, but never seemed to fulfill its potential. We were constantly defeated by technically poorer teams and never seemed to have the desire to win tight games.

We started off at home, beating Bedford on November 25; our defense proved strong but our offense appeared erratic. In the next game, Sherbrooke Seminaire proved this weakness as we fell to them by a two point margin. We managed to come up on top when North Country Union played us at Sunnyside School, but the Christmas holidays suspended our schedule until January 11.

On the first day back after the holidays, we played Richmond Regional and all we managed to do was work off Christmas Dinner as they outscored us 36 to 24. Three days later, poor conditioning beat us again and we lost to Seminaire for the second time. L.C.C. defeated us 66 to 14 in Montreal as we had no chance against their experienced ball handling. Three days later, a younger Loyola team came out and edged us, 37 to 35.

At last we won a game. Sacred Heart (Newport, Vt.) lost to us in a one-sided game, though we couldn't sink those crucial baskets and we only won by one point. Good fortune continued as we overwhelmed St. Georges 49 to 29, with David Salman scoring seventeen points.

The season fell apart as we dropped our last four games to St. George's Sacred Heart, Richmond and Bedford.

FRONT ROW: B. Blackwood, P. Roman, S. Etcheverry, T. Wilkins, P. Gloger.

Varsity Basketball turned out a spectacular squad this year as the Red Machine went undefeated for the first time in Stanstead history. Gus Haig and Steve Etcheverry, two of the finest players in the province, were the core of this year's team.

The season started off fast with a couple of big wins. The fist tough competition was A.G.R.H.S. who we beat 54-50 in an overtime thriller. The Red Machine kept improving all the time, moved steadily ahead defeating the next seven teams handily.

The second Gault game was at home and a big crowd turned out to cheer the Spartans on. Again the game went into overtime and again the Spartans came out on top by four points.

The last game of the season was against Bedford. At the end of regulation time, it was all tied up 49-49. With three seconds left in the overtime period, Peter Roman tossed a long pass to Gus who made the two point play from underneath the basket all alone.

It was a successful season enjoyed by all and many thanks go to Mr. Denney and the 'Huitson Twosome' for their unswering loyalty to the team.

The season would not have been possible without Mr. Brian Denney. The entire squad extends its warmest thanks to coach Denney and wishes him repeated success with his future teams.

Bantam Hockey

This year's bantam hockey team enjoyed an excellent season. Due to the very able coaching of Mr. B. Gallant and good effort from the whole team, we ended up with a 5-6-2 season. The worst problem suffered by the team was the lack of weight and size, but the players tried to overcome this setback by working very hard through all practices and games. We lost two games against St. Georges and two against Bishops. Our most avid spectators were Doug McDade and Mrs. Gallant and the team thanks them sincerely for their interest and effort to help and guide us through the season.

J.V. Hockey

This year's J.V. hockey team has been one of the best in a long time. With a lot of work and effort by all members of the team, we had a winning season. The team started out slowly but then gained momentum in the latter part of the season. The highlight of the season was the Northwood game played in Lake Placid. Their team was big and fast. However, we put it all together and came out on top 4-1.

Sincerest thanks go to our coach Mr. André Lebel who guided us to such a successful season, to Ken Lemon for a fine job of managing, and to the entire team for their strong efforts.

BOTTOM ROW: B.Hodge, B. Robinson, G. Brown, M. Duranceau, J. Long, D. Lemay, D. Anderson.

This year's team had to follow in the footsteps of the previous year's powerful squad. With only five established players returning, Mr. Boyd molded a team which was to go undefeated for the first half of the season. The flu bug struck at a bad time, benching key players and disheartening the squad which led to a slump of three losses. The team got back on its feet by defeating B. C. S. and splitting a two game series with Northwood, a powerful American team. To do this the team put together its best performance of the year.

The highlight of the season was a come from behind upset of L. C. C. 4-3 in the third period; our first victory over L. C. C. in five seasons.

This year's team consisted of many younger players with lots of potential, who will go on to form a strong foundation for future teams.

The Red Machine played to a 12-6-2 season thanks to the prodding and coaching of Mr. P.W. Boyd.

SKI TEAM

The ski team had a healthy competitive year both in alpine and cross-country skiing. In the alpine program the ski team was greatly aided by a ski coach from Mont Orford. The team took part in Zone races, and inter-school meets. André Moisan placed first in the slalom at the Sutherland meet with myself second in the slalom, Zone race at Hatley. The alpine ski team would like to thank Mr. Smith for all his time he spent with us.

The cross-country ski team had an enlightening year. Thor Enye-Brettson, one of the leading skiers in North America, helped the team tremendously on technique. Miles of trails were cut this year by the cross-country skiers headed by Ian Fisher. The cross-country season was a success especially for the Junior team who did not lose one of their meets. The highlight of the year for the Junior team was at the Sterling meet, winning a cup for placing first. The Senior team moment of glory was its win over B.C.S. by 33 seconds, improving from its past record of being beaten by one second.

The team warmly thanks Mr. Eveleigh and Mr. Killawee for their great contributions to the team to enable the cross-country ski program to be a success.

Hugh Gurd.

FRONT ROW: D. Huitson, B. Wright, H. Gurd, I. Fisher, C. Moisan.

On February 27-28 Mr. Eveleigh, Mr. Killewee, and ten students participated in the fifth annual running of the Canadian Marathon Ski Tour. The course covered over 80 miles of every kind of terrain from Morin Heights, north of Montreal, to Point Gatineau, across the river from Ottawa.

We all had a very enjoyable time despite facing everything the elements could throw at us. Through pouring rain, blizzards, elusive sunshine, and horrendous track conditions, we happily struggled.

Hugh Gurd and Brad Wright entered the marathon as a two man racing team and to the surprise of everybody, no one more so than themselves, managed to finish second.

The highlight of the event was the complete lack of law breakers, notably of Tour Rule No. G stating, "All skiers must remain happy, cheerful."

We would like to thank Mr. Killewee and Mr. Eveleigh who provided us with, encouragement and aid selflessly and even out-skied the students.

Winter Carnival

This year's carnival was held the weekend of February 6th. The ski trip to Mount Sutton on Friday was curtailed when the skiers arrived there to find gale winds and only one lift operating. The poor conditions forced them to return early.

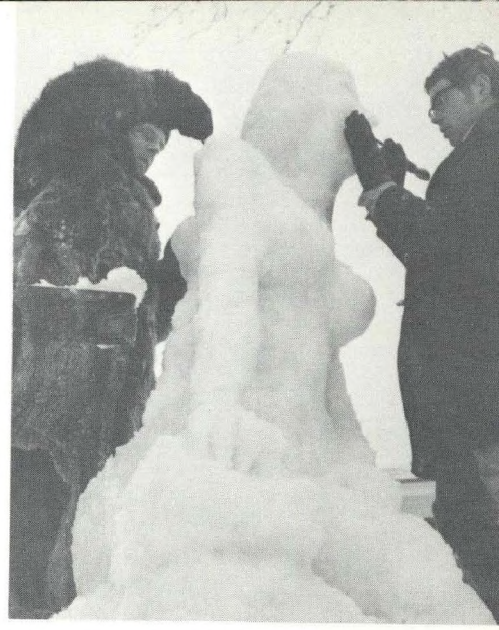

The Broomball Event began Friday evening and the finals were played the next day as well as a game between the champions, Senior Davis, and the girls. Other events were log-sawing, log-throwing, downhill and cross-country skiing, "dogsledding" (as pictured above) and an Egg Throw Contest.

The Ice Sculpture event was won this year by the Staff's Mermaid, who declined the award in favour of the Prefects. The "Creativity Prize" went to Senior Davis, who made quick of the cake they were awarded, thanks to "Haystack".

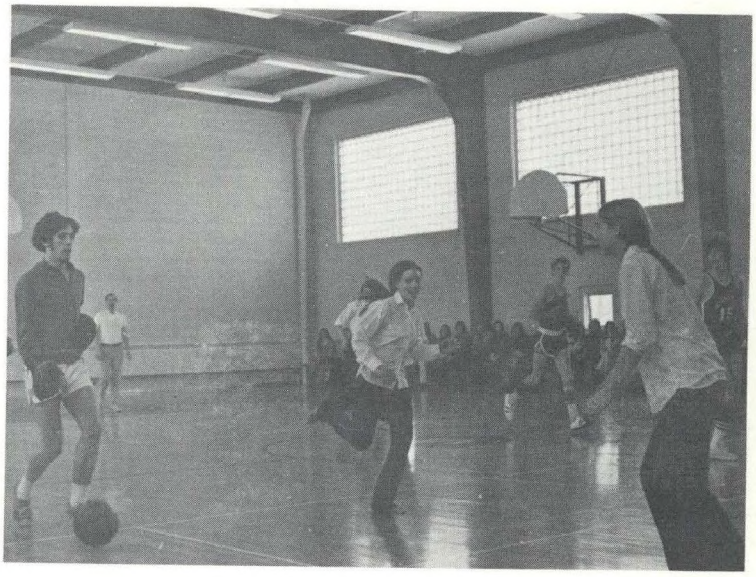

An added event this year was the basketball tilt between the aggressive Varsity team and Compton's talented five. For the only time this season, Haig and Co. were put down by an insignificant score. Both teams gave the fans plenty of excitement.

In the late afternoon, everyone was entertained by such personalities as the carnival princesses, both from St. Helen's Ranger and his Chocolate Milk.

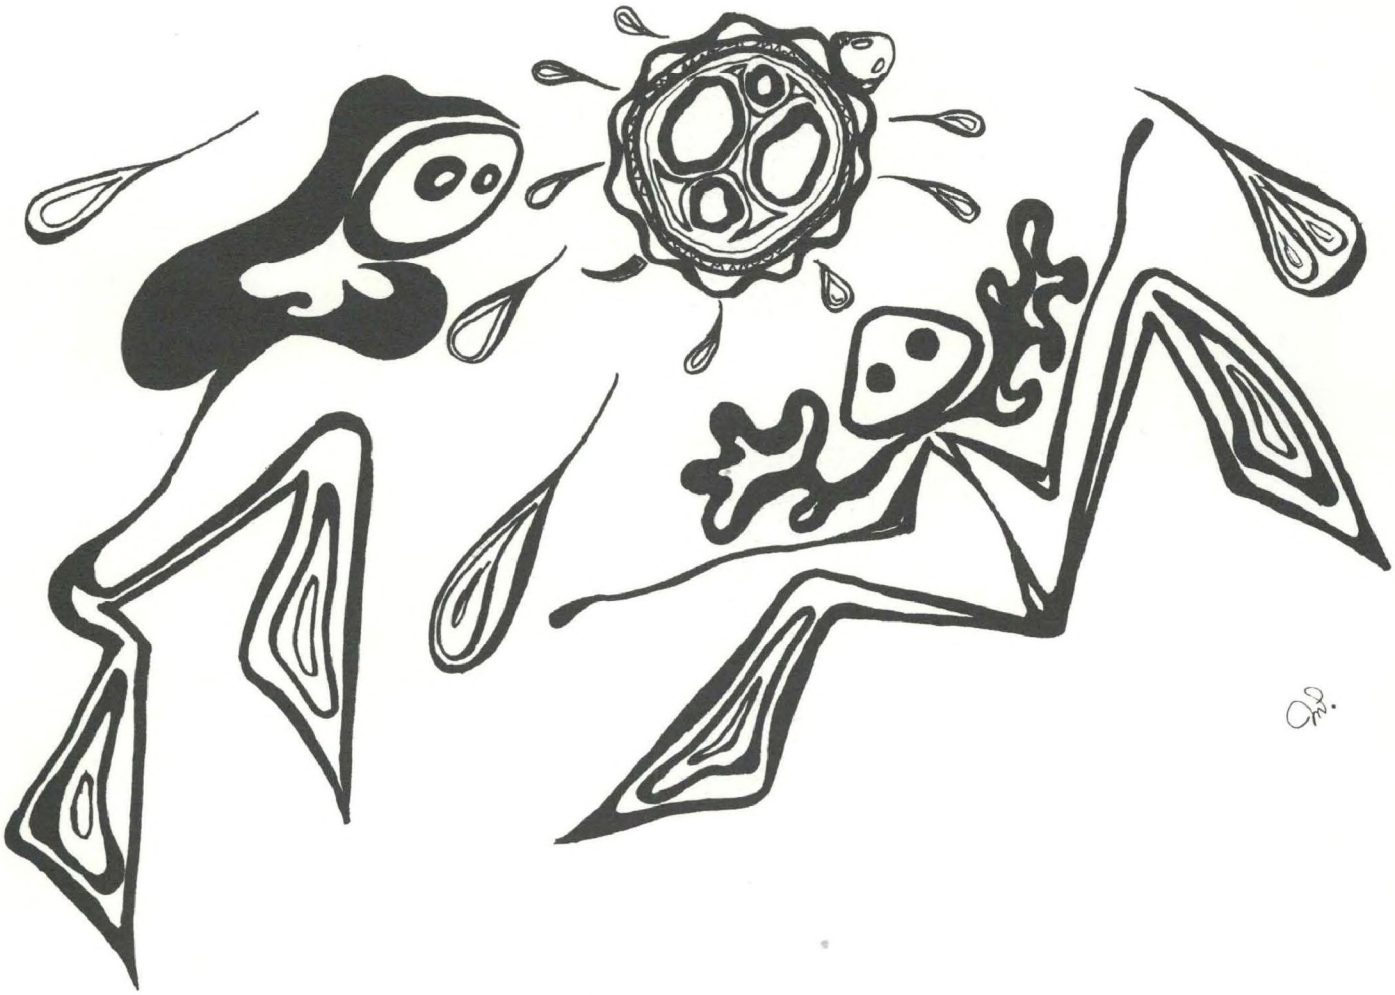

The dance in Lebaron Hall featured Gunnison Brook, from Boston, and this had to be one of the best dances ever held at Stanstead. Like other bands that have played here, they arrived an hour late, but more than made up for it when things got off the ground.

Thanks for this year's Carnival success should go to Mr. Eveleigh, Mr. Williams and The Student Council.

St. Helen's Dance

Saturday, March 13th was the night we all looked forward to when fifty of us hit Dunham's famous institution. The band was the 'new' Rabble and they played until eleven thirty. It was too bad that they weren't the 'old' Rabble, but the great job done by the girls made the scene a good one. This was our last 'social event' with St. Helen's, and we want to thank Gord Hoskin and Tim Wilkins for organizing all the visits between schools this year.

1971 Graduation Dance

The "Grad" was held this year at the Windsor Hotel in Montreal on the evening of April 3rd. The dance itself was preceded and followed by the usual parties. John Scrim hosted a cocktail party in Mount Royal and the buffet dinner followed at the hotel. The orchestra played till one o'clock and Mel Moffat stole the show. Gord Hoskin threw the "after party" at his house in St. Lambert. For those who could still walk, talk and eat, a breakfast party was held at the Newman House, and everything was concluded by eight o'clock Sunday morning. Thank you John Scrim for organizing the dance and for all your informative "announcements" throughout the night.

Rifle Team

TOP ROW: Captain Howard, Bruce Cameron, Donald Bliss.
BOTTOM ROW: Bob Blackwood, Rick Robinson, Paul Finestone, David Richardson.

This year the Rifle Team had an auspicious start on the wrong foot by being disbanded immediately after the initial organization, a result of the War Measures Act. However, as soon as the Public Safety Act came into being, the Rifle Team began in earnest. There was a practise and a competition shoot each week under the supervision of Captain Howard.

In spite of the late start, the Rifle Team managed to place first in the "C" class in the Province, with an overall average of 91.3%

Even with our guns recalled, however, by the Canadian Army, the Rifle Club continues on. The intention is to join the C.I.C. Shooting Competition, which is similar in nature to the Army Indoor Range Competition.

It is hoped that the school will make a worthwhile investment in purchasing guns. If not, some of the Rifle Club members will carry on with their own guns.

THE STUDENT OF TODAY

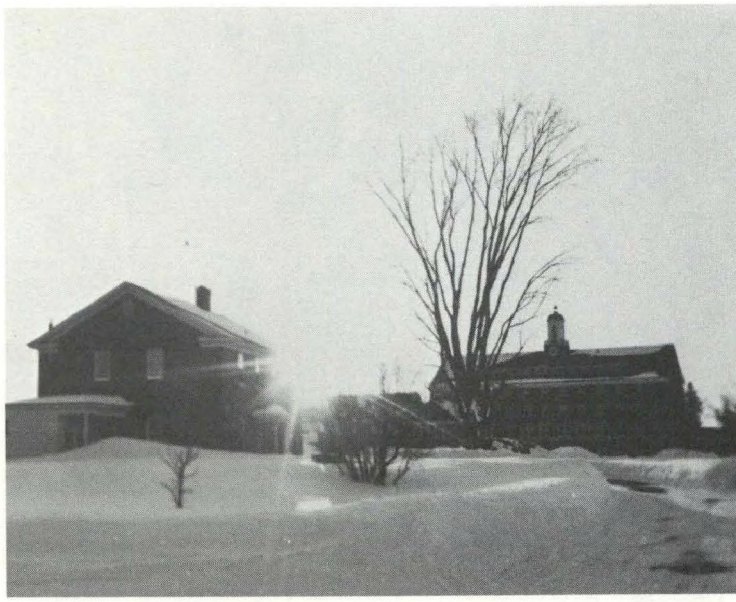

"There is a revolution coming. It will not be like revolutions of the past. It will originate with the individual and with culture, and it will change the political structure only as its final act. It will not require violence to succeed, and it can not be successfully resisted by violence. This is the revolution of the new generation."

Charles A. Reich

We live in an era of transition. Throughout history man has constantly followed cyclic patterns in his progression. Today we are at the terminal end of this cyclic orbit and at the origin of the next. The future will bear little resemblance to the past, as we are embarking into a time of change. This transition is being brought about by the youth of today, a generation which remembers no past.

Our era is marked by dissent. The youth seek a new existence, one which does not bear the undesirable traits of our present one. The values of the previous generations, which create false impressions, are being discarded. No longer are morality and ethics controlled by a code but by individual assessments. We can not deny youth the rights which they seek, for we have lived and are continuing to live by standards as obsolete as the horse and buggy. Our generation will be one of immense change, for youth strives to create a set of values which is reflective of a personality. Dissent will continue until we tackle the etiological origins; it will continue until we pay attention to what young people are trying to tell society.

In community living there is a constant pressure to conform. The youth is not allowed to follow the paths that his emotions dictate, but rather he must follow that which is presently condoned. The trend has become one of emphasis on the themes which were for so long left obscured by the traditions of society. They strive toward a Utopia which they feel must exist, for the new generation is one of idealists.

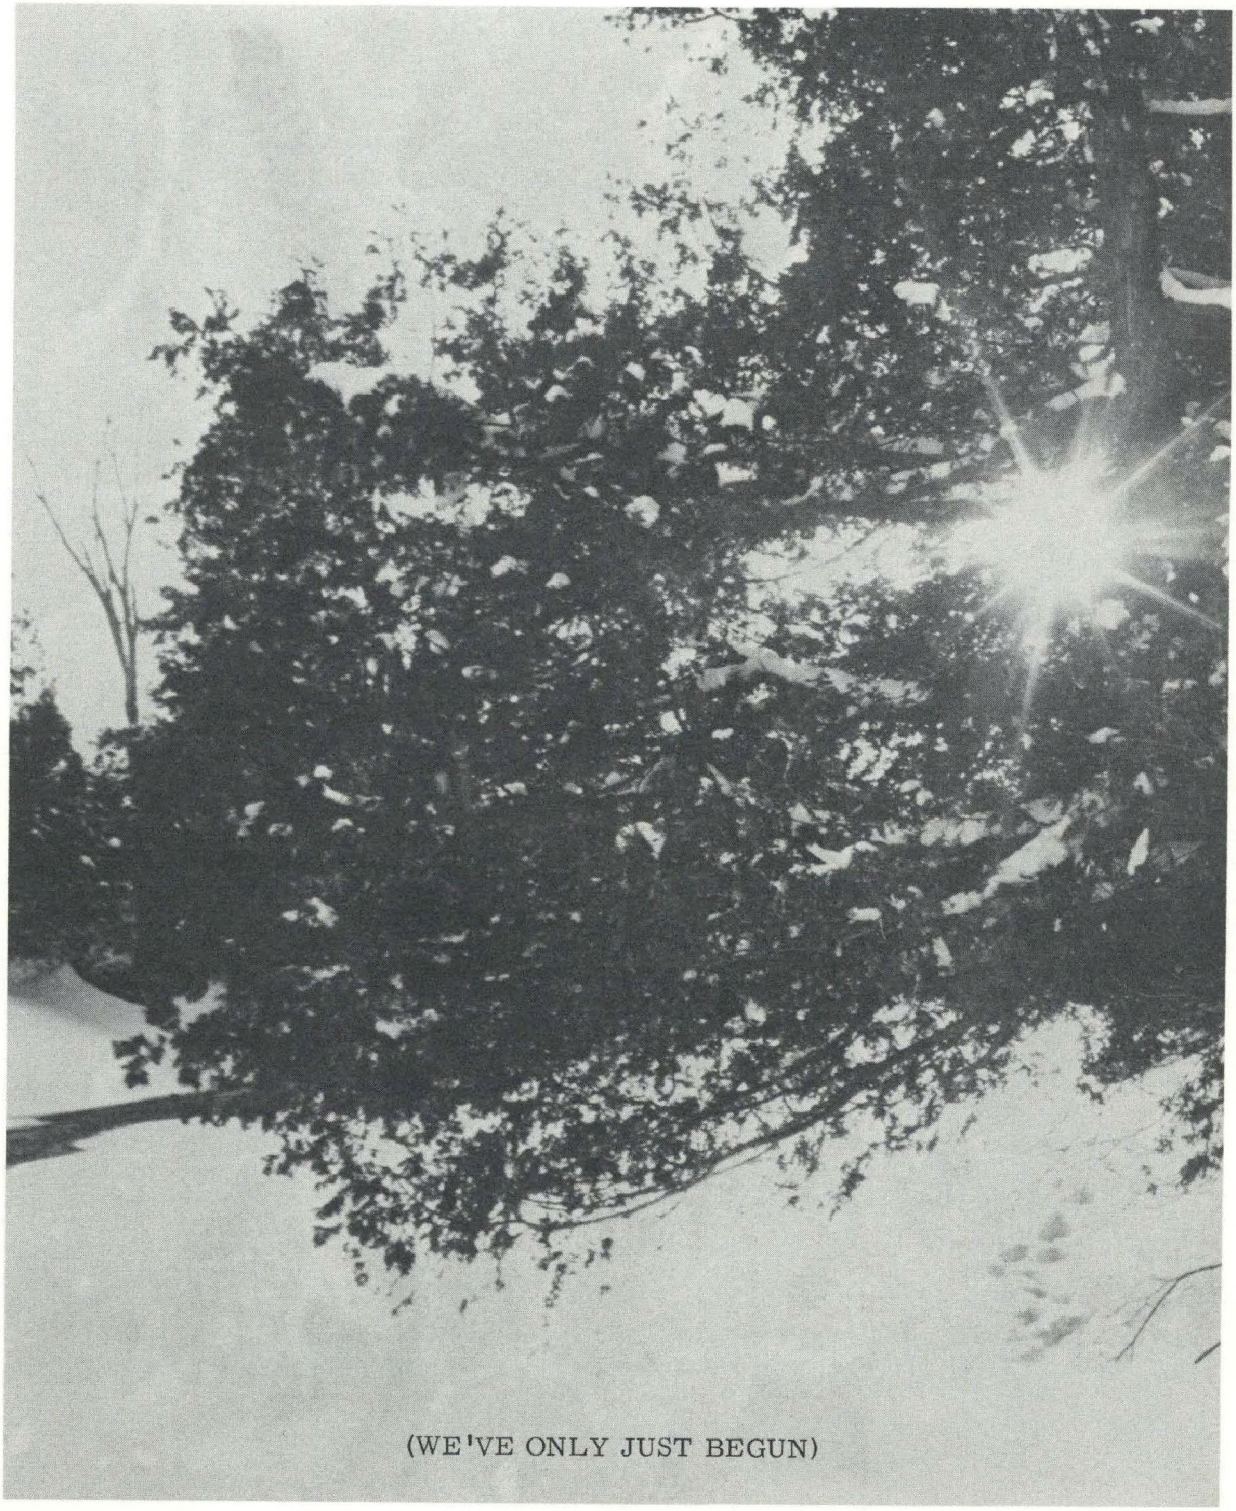

The new man which is being created desires to be an individual. He does not wish to become the 'cog in the wheel' that society would have him be. The expression of one's thoughts combined with a freedom of action is the key to the new generation. The general mood is to that which will allow one's individuality to be the dominant trait.

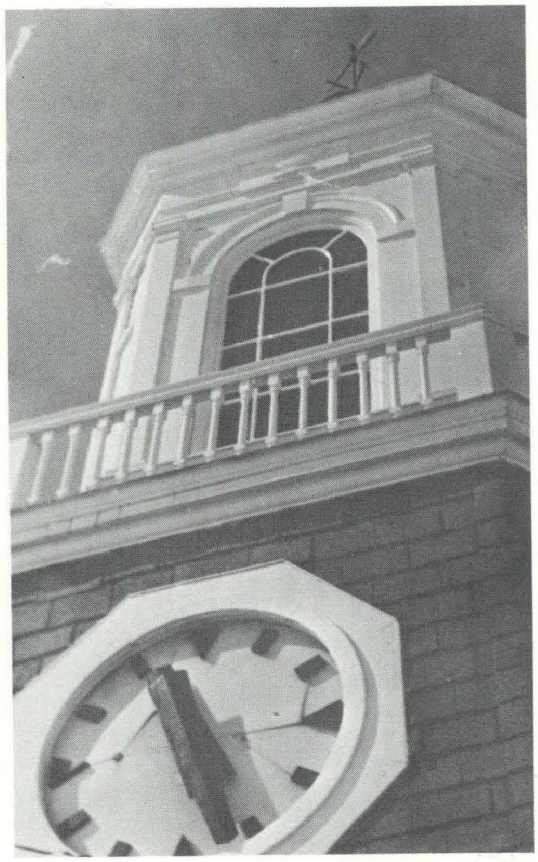

Yet with its idealistic aims and goals, youth is trying to "find itself". Everyone has a desire to know where he stands, and this is what is lacking. We find students pursuing every angle in the hope that the ultimate target will at some time appear. Hence we are forced to conclude that youth does not understand itself. They are entangled in a philosophy which they are not sure that they understand. It is not an exaggerated conclusion to say that youth listens to the words sung over and over by their teen-age music-makers, without comprehend-

ing what they really "dig". They are anti-establishment and apathetic toward society's trends and ideas (and often rightly so) yet they have no answer. There is no formula which will create change at the rate in which they desire it to come. The future is a field of change, for man has gained his autonomy. Society has remained unrevolutionized for three hundred years and its day of reckoning has arrived.

Michael Campbell

DISCOVERING

To live
Is to explore the entire universe
And miss yourself

To live
Is to escape into a Utopia
Of oblivion

To live
Is to be free
While the shackles tighten

To live
Is to be taught
Not to think

To live
Is to learn
How to be taught

To live
Is to find yourself
Lost in a void

To live
Is to be yourself
And be destroyed

CONTEMPLATING

Man is an animal--
He seeks easy prey
And destroys it with vigor.

Man is an animal--
He adapts to his environment
Only to let it pervert him.

Man is an animal--
He nurtures his offspring
In his own self-righteous mold.

Man is an animal--
His existence is communal
His extermination unique.

Man is an animal--
He lives for the present
Only to die in the future.

Man is an animal--
His evolution surreal
His degeneration obtuse.

Man is an animal--
A self-styled atheist
Who conforms to his own orthodoxy.

Man is an animal--
He reinforces his superego
With iron bars of contempt.

Man is an animal--
Beneath his superficial skin
Is revealed an unearthly carcass.

Man is an animal--
He pursues his own interests
Without regard for the species.

Man is an animal--
His purpose in life
Is distorted beyond imagination.

Man is an animal--
How illogical to give him
Even that much credit.

CONCLUSION OF AN EFFORT

The room is so smokey that my eyes
are watering

I saw a sidewalk artist
making five minute character sketches
of tourists for a dollar, today.

Further up the sidewalk
stood an old addict
trying to earn his liquor keep
by making poor scrawls of those
who would heed his muttered offer.

It was a new game to him.

I mean, who had the right?

Thoughts in a
SIX-CORNERED ROOM

It seems that all I do is based upon
the fact that
you will be there when I get back from
wherever I was.
What's the good of leaving for the sake
of returning?

Cable-car rides are a gas
but can be ruined by one pushy kid
who seems to have missed the point.

That incense takes awfully long to
burn.
Although some things don't take as long
to burn
they leave a more permanent scar than
ashes.

Have you ever seen three sticks of
incense stuck in a blues harp
one with an umbilical cord
one with an erection
one with a beckoning finger...

San Francisco was somewhat of a
disappointment
that'll teach me to...

- Gord Hoskin

I lead a fun little life,
Always finding more,
from a simple source
Very much within
the shorelines of myself.

I spend most of my time
here in my room
at my desk
working, playing, digging,
reflecting.

I see the same friends
visit the same, renewed
nature
Never go far
No big commotion

At night,
I go into my little bed
facing a friendly little corner
half listening to the music
half looking back on the day
or dreaming when

So innocent
their faces,
so pure
are their minds
I wish them
